## Forward-Looking Statements

This presentation contains, in addition to historical information, forward-looking statements. These forward-looking statements are based on SMIC's current assumptions, expectations, beliefs, plans, objectives, and projections about future events or performance. SMIC uses words including but not limited to "believe", "anticipate", "intend", "estimate", "expect", "project", "target", "going forward", "continue", "ought to", "may", "seek", "should", "plan", "could", "vision", "goal", "aim", "aspire", "objective", "schedule", "outlook" and other similar expressions to identify forward looking statements. These forward-looking statements are estimates made by SMIC's senior management based on their best judgment and involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC's actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with cyclicality and market conditions in the semiconductor industry, intense competition in the semiconductor industry, timely wafer acceptance by SMIC's customers, timely introduction of new technologies, SMIC's ability to ramp new products into volume, supply and demand for semiconductor foundry services, industry overcapacity, shortages in equipment, parts, raw materials and software, availability of manufacturing capacity, orders or judgments from pending litigation, intellectual property litigation in the semiconductor industry, general economic conditions, fluctuations in currency exchange rates and the risk of geopolitics.

In addition to the information contained in this presentation, you should also consider the information contained in our other filings with The Stock Exchange of Hong Kong Limited ("SEHK") and Shanghai Stock Exchange ("SSE") from time to time. Other unknown or unpredictable factors also could have material adverse effects on our future results, performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this presentation may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated or, if no date is stated, as of the date of this presentation. Except as required by applicable laws, SMIC undertakes no obligation and does not intend to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made, or to reflect the possible or actual occurrence of unanticipated events after the date on which such statement is made, whether as a result of new information, future events or otherwise.

Profit (loss) attributable to Non-controlling interests	36,018	39,940	-9.8%	121,934	-70.5%

- Revenue was \$1,462.3 million in 1Q23, a decrease of 9.8% QoQ from \$1,621.3 million in 4Q22. The decline was mainly due to the decrease in wafer shipment in 1Q23.
- Gross margin was 20.8% in 1Q23, compared to 32.0% in 4Q22 due to the decrease in wafer shipment and capacity utilization in 1Q23. Research and development expenses decreased to \$167.7 million in 1Q23 from \$197.5 million in 4Q22. The change was primarily due to the lower level of R&D activities in 1Q23.
- General and administrative expenses decreased to \$99.9 million in 1Q23 from \$127.3 million in 4Q22. The change was mainly because a new majority-owned fab entered into production in 4Q22 and the start-up cost decreased thereof.
- The change in other operating income was primarily caused by the change in the income recognized in relation to government funding and gain or loss on the disposal of fixed assets.
